Dear Ms. Attwood,

Although the Commission did not grant AT&T's waiver request in December, AT&T respectfully renews the request that the Commission to allow AT&T to use projected revenues (see December 13, 2001 *Ex Parte*) as the basis for the remainder of its USF payments (February forward) until such time as a permanent solution could be put in place to eliminate the "lag effect" caused by the use of six-month old revenue data. On December 18, 2001, AT&T filed an *ex parte* letter demonstrating the schedule of activity necessary to accommodate AT&T's request to use projected revenues as the basis of determining its USF contribution. While the dates necessary to effect that change for January have passed, the Commission can grant AT&T's waiver up until January 18, 2002 to be effective February 1, 2002 (See Attachment 1). If the Commission cannot act by January 18, 2002 action before February 1, 2002 should allow for implementation effective March 1, 2002. (See Attachment 2)

OPERATIONALIZING AT&T's WAIVER REQUEST
Effective February 1, 2002

- USAC recalculates the revenue assessment rate for the 1st Quarter of 2002 by replacing AT&T historical revenues with AT&T projected revenues for the quarter – 1/17/02.
- FCC grants AT&T waiver by January 18, 2002 and authorizes new revenue assessment rate for the 1st Quarter of 2002.
- Carriers revise their collection rates to reflect the new assessment rate – 2/1/02.
- USAC bills respective Carriers based on their submissions according to the current billing schedule adjusted for January payments based on current assessment rate – February 15, and March 15.
- All carriers remit remaining contributions according to current payment schedule – March 15, and April 15.
